

## Custom Injection Molding

Bring Mossberg Industries an idea, concept, product print or a mold and we can help you finish your project. Our in-house engineering staff will bring your plastic products to life from the very start. Accomplished with vast experience in both product and mold design, we focus on understanding our customers and how we can help meet goals and objectives.

Whether it is an injection molded or extruded plastic product, Mossberg Industries puts the utmost quality into each and every piece.

## Equipment List

---

We have the capability to run a wide range of products with press size ranging from 50 to 1800 tons. Our automation team also works closely with the design engineers to make sure we can run your product in the most efficient manner.

The newly built 46,000 square foot building holds the following:  
19 Injection Molding Presses

- 1800 Ton press with 360 oz. shot
- 950 Ton press with 165 oz. shot
- 850 Ton press with 362 oz. shot
- 700 Ton press with 125 oz. shot
- 600 Ton press with 85 oz. shot
- 600 Ton press with 54 oz. shot
- 500 Ton press with 105 oz. shot
- 500 Ton press with 105 oz. shot
- 500 Ton press with 61.5 oz. shot\*
- 500 Ton press with 48 oz. shot (2)
- 440 Ton press with 55 oz. shot\*
- 400 Ton press with 41 oz. shot
- 385 Ton press with 42 oz. shot\*
- 300 Ton press with 34 oz. shot\*
- 240 Ton press with 17 oz. shot\*
- 220 Ton press with 8 oz. shot
- 200 Ton press with 14 oz. shot\*
- 56 Ton press with 1.7 oz. shot\*
